

5-MINUTE PILOT · MUSIC & SOUND STORYBOARD

THE COURTYARD KEEPS SCORE

Artlist search briefs, cue map and edit handoff

The sound of Fiango

Start with life before score: well rope, a radio through compound walls, football on packed earth, cooking and evening insects. Music is Zino’s emotional storytelling, not a generic background label.

MUSIC GRAMMAR

FIANGO BED

Warm, percussive, guitar-led instrumental Afro-fusion/highlife-leaning groove. It leaves space for Pidgin and English dialogue.

GRAND MOTIF

Muted plucked guitar or clean strings, one small bell/chime and a controlled upward phrase. Elegant, human and brief.

MONEY PRESSURE

Remove melody and low end. Let notebook paper, rope, radio distance and silence do the work.

NACKING BOTTLE

Dry foot percussion, handclaps and one low pulse. The glass strike is the story accent.

FEE NOTICE

No music under Mother’s last lines. The unresolved motif returns only after coins open in Zino’s palm.

CONNECTION STATUS

Your Artlist account may be connected in ChatGPT, but no callable Artlist connector or account-authentication route is exposed to this workspace. Use this as a ready-to-audition handoff when the account is open; do not call a track licensed until the account holder confirms its record and intended social usage.

Five minutes, one musical arc

The score moves from Fiango warmth to private calculation, then stops so Mother’s words can land. Grand’s motif is a promise, never a solution.

TIME	CUE	STORY FUNCTION	EDIT ACTION
0:00–0:40	A1	Fiango, friendship and Zino’s humour	Start under real sound; silence at basin.
0:40–0:58	B1	Grand-Chukuchuku arrives	One gold-lift phrase; hard cut to water.
0:58–1:38	A2	Home, work and friendship	Rope rhythm folds into groove.
1:38–3:00	D1/D2	Rent, lunch money, hunger and school	Sparse texture; dialogue leads.
3:00–4:16	C1	Nacking Bottle stakes	Build to hit; stop at Zino’s miss.
4:16–4:48	SFX	School-fee notice	No score: door, paper, breath, water.
4:48–5:00	E1/B2	Coins become the question	Return fragment; cut before resolution.

Board-by-board sound edit

The visual pilot board remains the framing authority. These instructions tell the editor where music must yield to football, dialogue, silence and Mother’s final question.

01
0:00–0:08

THE BALL

CUE A1 1.5 seconds naked compound ambience, then hand percussion under the ball thump.

EDIT POINT First kick is downbeat.

02
0:08–0:21

THE COMPOUND

CUE A1 A1 low under dialogue; bucket rope and distant radio establish home.

EDIT POINT Keep Gideon/Luc clear.

03
0:21–0:40

THE MISS

CUE A1 → SFX Thin to one guitar pulse; kill music at basin impact and hold real sound.

EDIT POINT Basin splash transition.

04
0:40–0:58

THE FIRST LEGEND

CUE B1 Grand’s gold lift plus one restrained chime as the ball bends.

EDIT POINT Hard cut into water.

05
0:58–1:18

BACK TO EARTH

CUE A2 Soft guitar and rope rhythm return; Mother’s first line remains dry.

EDIT POINT Lower on correction.

06
1:18–1:38

WELL WATER

CUE A2 Hand rhythm follows rope pull; avoid scoring the joke too broadly.

EDIT POINT Bucket fill completes bar.

Board-by-board sound edit

The visual pilot board remains the framing authority. These instructions tell the editor where music must yield to football, dialogue, silence and Mother’s final question.

07
1:38–1:58

THE PRICE

CUE D1 Remove warmth. Room tone and a nearly inaudible pulse arrive after the notebook.

EDIT POINT No invented debt emphasis.

08
1:58–2:16

A SMALL PLAN

CUE D1 Muted guitar harmonic; bottles sit far away in the sound field.

EDIT POINT Coin → school desk.

09
2:16–2:38

SCHOOL MORNING

CUE D2 Chalk, bench scrape and two or three soft ticks only.

EDIT POINT Dialogue leads.

10
2:38–3:00

THE ANSWER

CUE D2 Stop score for the correct answer; falling paper becomes rhythmic pickup.

EDIT POINT Paper → cloth.

11
3:00–3:18

THE OFFER

CUE C1 Dry handclap/foot pattern starts with the target-bottle close-up.

EDIT POINT Ball rolls on beat one.

12
3:18–3:37

FIRST HIT

CUE C1 Build modestly; cut one beat before glass clink. Crowd remains diegetic.

EDIT POINT Bottle fall is accent.

Board-by-board sound edit

The visual pilot board remains the framing authority. These instructions tell the editor where music must yield to football, dialogue, silence and Mother’s final question.

13
3:37–3:58

THE TEST

CUE **C1 + B1** Strip C1 to low pulse and feet. A near-inaudible Grand harmonic touches the gold edge.

EDIT POINT No fantasy rescue.

14
3:58–4:16

THE MISS / CALL

CUE **SFX** Stop C1 at the miss. Mother’s call travels through empty space.

EDIT POINT Call bridges home.

15
4:16–4:34

THE NOTICE

CUE **SFX** Run, ball, door, papers, radio from a neighbour. No score.

EDIT POINT Doorway absorbs street.

16
4:34–4:48

THE QUESTION

CUE **SFX** Breath, paper edge and bucket fill only. No sad cue.

EDIT POINT Silence starts early.

17
4:48–5:00

COINS / TITLE

CUE **E1 + B2** E1 begins on open palm; one Grand fragment rises and stays unresolved.

EDIT POINT Hard cut at 5:00.

Artlist audition plan

Search three candidates for each cue. Pick a coherent sound family instead of five unrelated songs. The queries below are editable language, not track titles or catalog claims.

A

FIANGO BED

SEARCH: instrumental afro fusion warm playful guitar hand percussion

Warm compound pulse; 92–102 BPM feel, no lead vocal, dialogue-safe.

B

GRAND MOTIF

SEARCH: instrumental uplifting afro soul plucked guitar subtle chime cinematic

Dignified gold lift; one short rising phrase, never heroic-action music.

C

BOTTLE STAKES

SEARCH: instrumental rhythmic afrobeat tension hand percussion minimal bass

Dry rhythm and one build; must cut cleanly on a bottle hit.

D

PRESSURE / SCHOOL

SEARCH: instrumental minimal african ambient tense piano percussion

Sparse and unresolved; supports chalk, paper and money pressure without horror.

E

END TAG

SEARCH: instrumental hopeful unresolved guitar marimba sparse

A short tail in the Grand colour family; no musical resolution at 5:00.

DELIVERY CHECKLIST

- Download full mix; choose a loopable section or short cut only where the catalog offers one.
- Where available, keep percussion and bass stems for dialogue-safe editorial control.
- Record exact track title, artist, version, licence date and intended social use beside the final master.
- Record dialogue first. Build cue lengths around performance; never force Pidgin cadence to a chosen song.
- Export a 5:00 master and 15-second / 60-second cutdowns that preserve the B1/E1 motif.
